#0350 CUBE CASE

Introducing the Pelican™20" Cube Case. We teased our engineers about pocket-protectors and they came back with the new Pelican 20" Cube Case. It's so square we thought they were having one on us. Then we showed it around and realized they're on to something. Extra deep so you can layer foam or padded dividers (it's like a split level condo for gear). Or empty it out and drop in one big-ass thingamajig. Which is why it's got those gorilla-sized handles: a man on each side with a double hand hold each to heave those heavy loads.

You break it, we replace it... forever.

TEMPERATURE RATING			
MINIMUM		MAXIMUM	
DIMENSIONS			
INSIDE	20" x 20" x 20"	OUTSIDE	22-1/2" x 22-7/16" x 21-1/4"
LID DEPTH	5"	CASE DEPTH	18.45"
